DISGUST.

That's the Nature of Col. Sanford's Feelings.

As Early as December He Knew the Names of the Commissioners Who Had Been Slated.

The Deception of Local Republicans Was Deliberate—A Scathing Criticism of Judge Anderson and His Methods.

"I was not surprised by the late appointment of City Commissioners," said Hon. H. C. Sanford to a Democrat reporter Thursday morning, "but disgusted."

"I could have named the present appointees as early as last December, in case of Mr. Doyle's success. There would be some amusing incidents in this affair were it not for its seriousness. Judge Anderson steered the whole business. Through his City Commissioners, and Saloonkeepers John Koerber, Bert Eckerman and Bob Wilson, he controlled the whole thing. "One of the amusing incidents was that of the preachers' shying their castors into the ring to fight for Mr. Doyle on account of his temperance principles. As usual, they were imposed on, and it turns out they supported the worst saloon element in town."

"The only remedy within view that I know of is to demand a pledge of our nominated candidates for the Legislature that they will do all within their power to repeal the City Commissioner law, or at least modify it."

"How should the law be modified?"

ACCEPTED

Was Captain Feederle's Resignation.

Speculation Regarding His Successor.

(Special Correspondence.)
Columbus, April 18.—Adjutant General Gyger has accepted the resignation of Capt. H. O. Feederle, of Akron, as quartermaster of the Eighth regiment.

ROBERT O. RYDER.
Captain Feederle, who is now in Arizona, sent in his resignation some time ago, and the refusal of the Adjutant General to accept the same aroused general discussion in military circles throughout the State. Capt. Feederle had made an excellent record as quartermaster of the Eighth regiment, and the officials were not

A WAY THEY HAVE.

What This Akron Citizen Says Only Corroborates the Story Of Thousands.

The particulars related by this representative citizen of Akron are similar to hundreds of others in this city. When there are scores of people, all anxious to tell about the benefits received from the use of Doan's Kidney Pills, the greatest skeptic in Akron must be convinced. Read this:

Mrs. B. W. Whitehead, of 205 Poplar st., says: "In the spring of 1896 I procured Doan's Kidney Pills from Lamparter & Co.'s drug store for my son. They cured him of kidney complaint and up to the present time and it is the month of November, 1898, there have been no recurrences. I have the greatest confidence in Doan's Kidney Pills and have no hesitancy in re-endorsing my opinions expressed publicly in Akron newspapers considerably over two years ago. Doan's Kidney Pills can be depended upon to set up to the representations made for them."

anxious to lose his services.

Captain Feederle, however, was fully decided to retire from the service, and urged that business interests compelled the move. The acceptance of the resignation was the result.

Captain Fisher of Canton, was among those talked of as a successor in the position of regimental quartermaster, but it is not known that he will accept.

Officers of local companies received the news of the acceptance of the resignation at this time, as a surprise.

Given Up to Die With Croup.
Mrs. P. L. Cordier of Mannington, Ky., writes: "My three year old girl had a severe case of croup, the doctor said she could not live and I gave her up to die. I went to the store and got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life."

ARAB
Forced to Return to Port.
Met With an Accident En Route
From San Francisco to Philippines.

Akron Soldiers Were on Board the Transport.

A number of Akron boys, soldiers in the United States Volunteer army, who should be on the Pacific ocean en route to Manila, are waiting in San Francisco for a transport to carry them to the Philippines.

The delay is occasioned by an accident which occurred to the transport Arab, on which they were passengers. Corporal Andy Seiler, whose parents reside at 424 East South st., has forwarded a copy of the San Francisco Examiner containing an account of the trouble. He is attached to Troop F, Sixth U. S. cavalry, and has seven months to serve.

Describing the accident the Examiner says:

Far out at sea on her way to Manila the big steamer Arab, under charter to the United States government and carrying 656 horses for the cavalry in the Philippines, became disabled and was forced to put back to this port for repairs. She arrived here yesterday morning, greatly to the surprise of the army transport officers, and, after docking at Harrison st. wharf, the horses, which had been penned up on the transport since March 30th, the date of departure, were landed and led to the Presidio.

The Arab after sailing from here steamed along all right at ten knots an hour until April 4th. Then there was trouble with the boilers. Patches that were put upon them only a short time ago in Seattle, the city that is looking for the transport business, sprang leaks. These leaks from the patches became so great that Chief Engineer Walker found it practically impossible to keep water in the boilers. He had one of them shut down, and the vessel proceeded under what steam she could get from the other until the patches of the cooled-off boiler could be calked up. Then this boiler would be used and the patches on the other calked. This went on for five days, but the efforts at calking availed little, for the leaking became as vigorous as before.

The steamer was now out 1,000 miles, and could have proceeded to Honolulu, but several things determined the decision to put back to San Francisco. There is no government surveyor nor a surveyor of Lloyds at Honolulu, and Army Quartermaster Lieutenant Raymond, who was in charge of the vessel, considered that he would have to lie at Honolulu until a steamer could reach this city and one arrive with instructions as to whether the vessel should be repaired at that port or not. He figured the government would be better served by coming back to this port.

The Arab steamed for this city with what little steam she could carry in her boilers. The Government and Lloyd inspectors could not examine the boilers yesterday, as they must first be pumped out and cleaned. On Saturday they will be able to find out what repairs are necessary.

The Government officials were loath to charter the Arab for this trip until she was thoroughly inspected, but her agents offered the charter much cheaper than before, and on the showing that she had been repaired at Seattle, they decided to take her. The owners, the Bedouin Steam Navigation company of Liverpool, will have to pay for the repairs.

As there is no other vessel in port available at present as a horse transport, the government must wait until the Arab is repaired before it can supply its cavalrymen in the Philippines with mounts.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail for a cent. Send a free, also pamphlet telling all about it, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.
